Radiator Guard

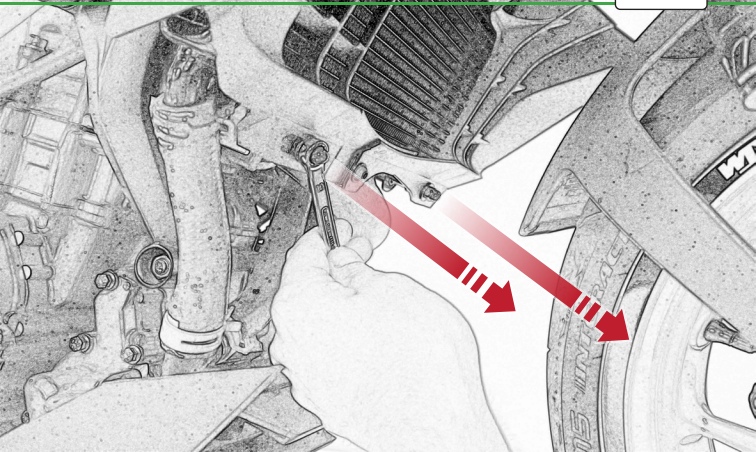

Installation Instructions

Kit Contents PRN013777

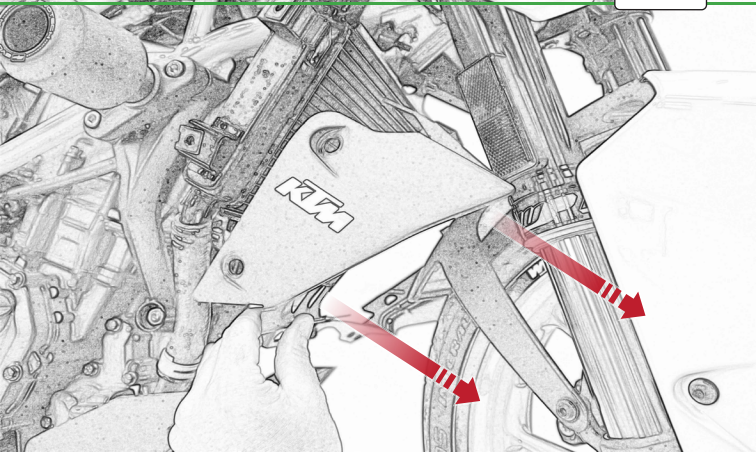

- A** 2 x Spacers
- B** 4 x Rubber Bungs

Locate round holes amongst hexagons.

Push Rubber Spacer through from the back of the guard so Hexagonal shape sits on the front face

Repeat
Both Sides

A close-up photograph of a person's hand wearing a white nitrile glove. The hand is holding a small metal screw with a Phillips head. The background shows a portion of a vehicle's interior, including a speaker grille with a hexagonal mesh pattern and some mechanical components.

OEM PART

Repeat
Both Sides

Reverse Stages

3 - 1

ESSENTIAL CHECKS

It is recommended that periodic inspections are made to ensure that dirt and debris have not become trapped between the guard and the radiator/oil cooler. Such dirt and debris would reduce the cooling efficiency of the radiator/oil cooler.

It is recommended that periodic inspections are made to ensure that all fixings are fully tightened.
